1. What format should subcontractors use to provide indirect rate information?

Section L.12.3 of the RFP specifies that subcontractors with subcontracts valued at \$650,000 or more shall provide the cost exhibits described in L.12.3 and shown in section J.1(b)5. Exhibit 5 and Schedules B and C deal with indirect rates. The subcontractor can still use these exhibits/schedules even if the subcontract is less than \$650,000.
